

CLIFTONSTRENGTHS EQUINE WORKSHOP

The CliftonStrengths Equine Workshop is an amazing opportunity to experience the CliftonStrengths method in an Equine-Assisted Learning (EAL) context. It is a 2-day arena Equine Assisted Learning experience on how to use the CliftonStrengths to enhance your client results in your Equine-Assisted services.

Come and explore why horses, as co-facilitators of learning, provide value and benefit to your clients in exploring their strengths.

What will the course cover:

- Gain an experiential understanding of how to incorporate CliftonStrengths into programmes with horses.
- Understand the unique power that horses bring to a strengths-based EAL event and learn how to fully realise the horses' potential to help clients use their strengths to develop the horse-human partnership.
- Understand how a strengths-based approach can power the productivity of a team, improve leadership skills and empower your clients to uncover the results they desire.

(It is highly recommended that non-E3A practitioners at least complete E3A's Introduction to Equine Experiential Education Facilitation Teleclass prior to attending this 2-day arena class.)

14 March 2024, 4.00pm (PT) (Online)
(Compulsory for individuals attending the on-site component of the course)
23 to 24 April 2024 (On-site)
